

North Western Railway

Serving customers with a smile

Jodhpur Division

**Web based Managerial Information
System , Employee and Contractor
Information System**

And

**Touch Screen based Employee and
Contractor Information System**

SYNOPSIS

Jodhpur Division of North Western Railway **has come up with the information hub on Managerial, Employee and Contractor Information System as a step towards System improvement with the help of IT. This information System is not only touch screen based but also Web based and can be accessed through Railnet & Internet.** This information system is of the immense use of Executives, Railway Employees and Railway Contractors. By this railway employees can see their PF, Leave, Salary and pension details (Retd. Employee), railway contractor can see their bill details and Executives & Account officials can see all information related to Financial Review viz., Demand wise, Minor wise, Sub head wise, PU wise, PU current wise, Allocation wise get/expenditure and also the bill passed by Accounts department. Moreover, Allocation wise, PU current wise expenditure and bill passing information can also be accessed concurrently. It would help in better budget control and budget monitoring.

Touch screen based information System provides the information related to Employees i.e. PF and Pension details and railway contractor can see their bill passing details through their Bank Account Number.

Managerial Information System(MIS)

Managerial Information System facilitates information related to Demand wise, Minor wise, Sub head wise, PU wise, PU current wise, allocation wise Budget/Expenditure and report for bill passed by Accounts department concurrently and during the period of time.

MIS is divided in two sections. These are data entry and data view. The option of data entry facilitates Accounts department in month wise Budget Proportionate setting. This privilege is only with Accounts department so that no other can change data at user end.

However, data view part it is open for all, any user can see the FR/expenditure details in different type of reports. User can see both for the month and upto the month reports.

Export data option is also available in different formats like excel, xml, pdf, etc. Further, there are colorable indicators: Red and Yellow wherein **Yellow** indicates that expenditure exceeds the budget proportionate and **Red** indicates that expenditure exceed the budget grant.

All reports are in FR format.

A.E. Prev.Yr | Budget Grant | B.P. | A.E.uptoend mnth | A.E.Prev.Yr uptoend month | Var. bet A.E. & B.P. | Var. over Prev Yr A.E. & A.E | etc.

Bill Details: Bill Detail option facilitates users to see bills of vendors passed in particular time period.

*By default for global user user id: admin
password: admin*

Employee Information System

a) Provident Fund (PF)

Serving Employee can see their PF Ledger by entering their PF No. The ledger extracted from iTAS will show its current position of subscription, withdrawal along with the Balance.

For demo, enter PF No. ; 07171948, 07231064, 00722977

b) Pension Information (PPO)

Retired Employee can see their PPO as generated through iTAS by entering their PPO No.

This facility is available both on touch screen & Internet.

For demo, enter PPO No. 250267; 253100

c) Salary & Leave Details

The salary & leave details of officers & staff can be seen by entering PF No. and Date of Appointment. This facility is available on the Railnet.

Contractor Information System

Through this system, contractor can access the information on their current bill status and bill history by entering his Bank account number.

This facility is available both on touch screen & Internet.
